Intern Commitment Post-Graduation

As a participant in the Behavioral Health Workforce Education and Training (BHWET), Health Resources and Services Administration (HRSA) grant for the 2020-2021 training year, I understand the importance and need for professionals to provide services in rural areas helping underserved populations. I also understand that the purpose of my participation in this internship is to contribute to and improve the availability of behavioral health services with persons in rural, vulnerable, and/or medically underserved communities. With this in mind, I agree to the following:

- To complete and submit all required information necessary for accurate reporting and project documentation for the Health Resources and Services Administration (HRSA)
- To continue my career and seek employment working with the underserved and/or rural populations post-graduation.
- To respond to requests post-graduation for information necessary for program reporting purposes such as licensure status and career placements and to keep NPTC staff apprised of my professional development

If at any point I am no longer able to continue my internship, I will notify Dr. Andreassen and expect the immediate retraction of my annual stipend. I also understand that the stipend I receive may have an effect on any potential financial aid award I may receive from my school.
