

Complex Trauma Model Homestudy Training

SPONSORED BY THE NATIONAL PSYCHOLOGY TRAINING CONSORTIUM (NPTC)

Complex Trauma Model (6 CEs)

Materials composed and provided by Angela Neese, Ph.D.

Instructional Level

Advanced

Course Description and Target Audience

The complex model of trauma will be introduced as well as the importance of conceptualizing clients with complex or developmental trauma differently from individuals with other traumatic experiences. Treatment priorities and suggested models of intervention based on this conceptualization will be discussed and numerous case examples will be presented. Complex trauma clients are a diverse population and no model of treatment fits every client. This limitation will be highlighted in the presentation.

The target audience is mental health providers (advanced doctoral level psychology trainees, psychologists in practice, master's level clinicians etc).

Learning Objectives

- Participants will be able to explain the complex trauma model.
- Participants will be able to demonstrate the conceptualization of clients with complex trauma and differentiate these individuals from individuals with more straightforward trauma experiences.
- Participants will be able to describe the differences in treatment priorities for individuals with complex trauma histories vs. individuals with PTSD.
- Participants will be able to explain complex trauma treatment models.
- Participants will demonstrate an understanding of determining appropriate treatment goals for clients with complex trauma experiences.

Video Homestudy Format

CE's for this homestudy training will be earned through completing the following tasks:

- Complete the pre-test questionnaire (10 questions).
- Watch the presentation video and review all provided documents in their entirety.
- Pass the post-test questionnaire with at least 80% correct (8 of 10 questions correct).
- Fill out a program evaluation form.

Presenter Information:

Angela Neese, Ph.D., is a licensed psychologist in Indiana. She completed her internship at the University of Indiana School of Medicine. She also worked on the Psychiatry department consult lesion team and in the Pain Clinic at Riley hospital. Her post-doctoral year was spent working exclusively with adolescents who were dealing with severe complications due to complex trauma experiences. She has researched and taught on the topic each year since. Dr. Neese has also seen a number of patients with chronic illnesses and chronic pain while working in mood and anxiety disorder clinics. Dr. Neese also is a visiting Professor at the University of Indianapolis.

Registration Information:

Complex Trauma Model (6 CEs)

\$100.00 - regular price

\$75.00 - NPTC affiliates
