

MMPI-2RF: Psychometrics, Psychopathological Convergence, and Setting-Specific Utility Homestudy Training

SPONSORED BY THE NATIONAL PSYCHOLOGY TRAINING CONSORTIUM (NPTC)

MMPI-2RF: Psychometrics, Psychopathological Convergence, and Setting-Specific Utility (3 CEs)

Materials composed and provided by Curtis Mattson, Psy.D.

Instructional Level

Advanced

Course Description and Target Audience

This presentation will cover the Minnesota Multiphasic Personality Inventory – 2nd Edition Restructured Form. Specifically, the topics to be covered include an overview of the improved psychometric characteristics of the MMPI-2-RF and the implications of these improvements, the mapping of the MMPI-2-RF's hierarchical structure onto current models of psychopathology, interpretive approach and consideration of validity scale interpretation, and setting-specific application of the MMPI-2-RF. The materials for this presentation are primarily based on current, peer-reviewed research. Remaining information is based on direct clinical experience. There are no potential risks anticipated with this presentation or the information therein.

The target audience is mental health providers (advanced doctoral level psychology trainees, psychologists in practice, master's level clinicians etc).

Learning Objectives

- Participants will be able to explain the improved psychometric properties of the MMPI-2-RF and the implications of these improvements.
- Participants will be able to explain how the hierarchical structure of the MMPI-2-RF maps onto current empirical conceptualizations of psychopathology.
- Participants will be able to explain the purpose and interpretive approach associated with the MMPI-2-RF Validity Scales – including the recently added RBS.
- Participants will be able to connect MMPI-2-RF findings to setting-specific considerations when providing interpretations and client feedback.

Video Homestudy Format

CE's for this homestudy training will be earned through completing the following tasks:

- Watch the presentation video and review all provided documents in their entirety.
- Pass the post-test questionnaire with at least 80% correct (15 of 18 questions correct).
- Fill out a program evaluation form.

Presenter Information:

Curtis Mattson, Psy.D.

Dr. Mattson is a licensed psychologist in the state of Missouri. He completed an 18-month Post-Doctoral Residency with Dr. Ben-Porath, the first author of the MMPI-2-RF. During that time, Dr. Mattson ran Dr. Ben-Porath's MMPI Research Lab and used the MMPI-2-RF in many of the settings which will be covered today. In addition, Dr. Mattson has a long history of using the MMPI-2 and MMPI-2-RF in his own assessment practice and independent research endeavors.

Registration Information:

MMPI-2RF: Psychometrics, Psychopathological Convergence, and Setting-Specific Utility (3 CEs)

\$55.00 - regular price

\$41.25 - NPTC affiliates

FREE - NPTC supervisors

This cost includes video link, materials, tests, and evaluation required to obtain the CE's. The CE certificate will be emailed to participants upon successful completion of the training (80% on exam).

National Psychology Training Consortium (NPTC) is approved by the American Psychological Association to sponsor continuing education for psychologists. NPTC maintains responsibility for this program and its content.

Registration Form

Name _____ Highest Degree Earned _____

Institution _____ Position _____
