

Sexually Violent Predators Homestudy Training

SPONSORED BY THE NATIONAL PSYCHOLOGY TRAINING CONSORTIUM (NPTC)

Sexually Violent Predators (3 CEs)

Materials composed and provided by Kent W. Franks, Ph.D.

Instructional Level

Advanced

Course Description and Target Audience

The presentation will describe the development of the Static-99, the most widely used risk assessment tool used in sex offender assessment, developed from meta-analyses that identified factors statistically associated with sexual re-offense. The meta-analyses will be reviewed and students will be introduced to the most recent research in sexual risk assessment. This will include a discussion of percentile ranking, offender comparison groups and the use of risk ratios for categorizing offenders. Actuarial assessment predicts risk of sexual re-offense with moderate accuracy. It is significantly more accurate than clinical judgment. There are no known potential risks with this presentation.

The target audience is mental health providers (advanced doctoral level psychology trainees, psychologists in practice, master's level clinicians etc).

Learning Objectives

- Describe the empirically validated risk factors for prediction of sex offender re-offense.
- Explain actuarial risk assessment using the Static-99R.
- Apply the research pertaining to the effectiveness of treatment with sex offenders to reduce risk.
- Explain risk assessment with child pornography offenders.
- Be able to identify high risk sexual offenders.

Video Homestudy Format

CE's for this homestudy training will be earned through completing the following tasks:

- Watch the presentation video and review all provided documents in their entirety.
- Pass the post-test questionnaire with at least 80% correct (15 of 18 questions correct).
- Fill out a program evaluation form.

Presenter Information:

Kent Franks, Ph.D., has been a clinical psychologist for 29 years. He has been involved with the evaluation of sexually violent predators from 1996 – 2004 with the California Department of Mental Health. He was then involved with the evaluation of sexually violent predators from 2004 – 2014 with the Missouri Attorney General. Dr. Franks does ongoing risk assessment evaluations for courts, defense attorneys and probation and parole agencies. He served as an Adjunct Professor with The School of Professional Psychology at Forest Institute from 2004-2015, and has presented this material for the National Psychology Training Consortium multiple times.

Registration Information:

Sexually Violent Predators (3 CEs)

\$55.00 - regular price

\$41.25 - NPTC affiliates

FREE - NPTC supervisors

This cost includes video link, materials, tests, and evaluation required to obtain the CE's. The CE certificate will be emailed to participants upon successful completion of the training (80% on exam).

National Psychology Training Consortium (NPTC) is approved by the American Psychological Association to sponsor continuing education for psychologists. NPTC maintains responsibility for this program and its content.
