

Substance Abuse and Chemical Dependency Homestudy Training

SPONSORED BY THE NATIONAL PSYCHOLOGY TRAINING CONSORTIUM (NPTC)

Substance Abuse and Chemical Dependency (3 CEs)

Materials composed and provided by Carl M. Dawson, M.S., LPC.

Instructional Level

Advanced

Course Description and Target Audience

This presentation is designed to review current drugs of abuse, including alcohol. Particular emphasis will be placed on the neuro-psychological actions of drugs and their impact upon the individual and behaviors. Final emphasis will be on American Society of Addiction Medicine's criteria for treatment placement.

The target audience is mental health providers (advanced doctoral level psychology trainees, psychologists in practice, master's level clinicians etc).

Learning Objectives

- Review current drugs of abuse including alcohol, depressants, stimulants, designer, and hallucinogenic substances.
- Review the American Society of Addiction Med. criteria regarding placement for effective treatment.
- Review the neurological and psychological impact of all drugs of abuse including alcohol.
- Review current and future diagnostic criteria with regards to issues surrounding "Addiction", "Abuse" and "Dependence"

Video Homestudy Format

CE's for this homestudy training will be earned through completing the following tasks:

- Complete the pre-test questionnaire (10 questions).
- Watch the presentation video and review all provided documents in their entirety.
- Pass the post-test questionnaire with at least 80% correct (8 of 10 questions correct).
- Fill out a program evaluation form.
