

## Rorschach Responses

Date: 08-11- ID: AB 19 male

Examiner: ACA

Card	R	Response	Clarification
I	1	What do they call it? A bf. Like the bf people.....(E: Remember, I would like you to see two,..or may maybe 3 responses, two or three different things for each card.)	ERR. Right here is like its wings and on this side is the same thing but like it's body. (E: Are these separate responses or the same?) Have you ever heard of bf people? It could be both because it's a symbol. Like they could use this like batman. I don't know, I just seen the movie once. Like they use it over their face when they come back down.
	2	Like a wolf.	ERR. Eyes (S) and here's its ears and here's its mouth.
II	3	Face paint	ERR. Here could be the eyes and his mouth and like apply it on and this part (S) would be over there and like eyelids could have that clown-looking thing right above it. I would use it for face paint (E: paint?) the black and red.
II	4	A little bit from a skull - a bullet	ERR. Like if someone got shot, like a bullet pierced through here and blood came out. Up here II a skull with like eyes over here and the lower part of someone else's face and blood squirted out (E: blood) the red.
II	5	Two bears actually like those ones, [R observed on wall seal state seal] putting their hands together instead of being so far apart. Because they are reaching for each other.	ERR. Yeah. Here's one bear, his legs, tail, his back, and then his arms. Which those ones there [referring to state state seal on wall] is reaching out.
III	6	Definitely looks like there's a nose right there and like a jawbone of like - not a wolf but of a coyote or deer. (E: If you look at it longer could probably see something else there.)	ERR. Like right up here and then right back here part. (wml?) the out colored-in part II the structure right here and the nose is right up here or the nose could be up here. And then the eyes and that's where the horn part would be for the deer.
III	7	(pr) @ Eyes and a nose, jawbone, like a woman crying	ERR. Yeah, like a woman, eyes up here, she's crying and only thing to come down is the make-up (make-up) eyeliner, it's black.
IV	8	Two penguins like II they might be bums sitting on a tree - feet propped up and slouched like that.	ERR. Right here is the penguin's head, beak, the color (S) for black and white on face, could be wearing like a trenchcoat and boots - feet is gigantic because they carry their eggs on their feet. Tree sticks out.

IV	9	The top of like someone's head.	ERR. Like right here, looking down on it (3D gesture) or like, have you seen like a dog's skull? How it has the bones connected at the top - it's weird. It ll it could be like an xray from that. (x-ray?) I've never really seen an x-ray, but it don't look normal
V	10	A bf	ERR. Up here it's head, antennas, Its like flying away from you, (E:Flying away from you?) Like further into the blot, from this angle (holds card at arm's length.)
V	11	(E: Again if you could give another response it would be good.) a moth	ERR. Or a moth. (E:Moath) Yeah, same shape.
VI	12	A raccoon's face	ERR. Just like the lower half, whiskers and nose and other hair from his face. And his neck here. They all look like negative form pictures (E:What do you mean?) like take a picture in negative form colors, they are black and grey.
VI	13	A rabbit's nose	ERR. yeah, same thing. Nose and face there.
VI	14	Or a squirrel's nose. It's crazy	ERR. same thing with the nose a whiskers and face.
VII	15	Bunnies	ERR. I thought a bunny or an elephant the upper half of body. (E: Help me see the rabbit) Head looking that way and ears perking up
VII	16	Or an elephant - two elephants	ERR. Or an elephant and there's the trunk (D5), body below it.
VIII	17	Picture of someone's brain - to check and see if they have a brain aneurysm.	ERR. yeah. Bc I seen one before and it just kind of had colors like this. (E:Aneurysm?) Yeah, a test for an aneurysm.
VIII	18	Or like a panther climbing up a mountain like horizontal walking > along a creek - like there's, it's a reflection.	ERR. (>) But if you hold it like this it ll a panther or wolf walking along the edge of the creek and there's the reflection

IX	19	<p>The edge of the universe - or the start &gt; with it starting to come up the horizon with water making up the surface of the universe. Not the universe, but the surface of that planet. Where the clouds are reflecting the water and the water reflecting the clouds where they are getting too confused on which one is reflecting the other. (E: Please try to find another response.)</p>	<p>ERR. Like the west side of the planet. I meant to say not of the universe and the sun is going down (sun) so bright and like the color. Like another force - like a star. It's like a landscape here and like water here and you can't really tell which is reflecting off - it's such abstract thought that its exploding off this onto the picture.</p>
IX	20	<p>A bull (S) right here and here's it's horns. Like the Chicago bulls design but like hidden behind there in there and he's like blowing out smoke because he's mad. C23</p>	<p>ERR. Right here. Here's his nose and all this other stuff is smoke covering it up, and there's the shape of his head. It's on the - not colored-in like I originally thought. (E: Not colored in?) uh, he's outlined, not colored in, the white (DS8). The outline makes the drawing.</p>
X	21	<p>Insects. Like two bugs or beetles up here, grasshoppers up there. Some crabs and like bunnies. (E: Can you see another response?)</p>	<p>ERR. bunnies here, grasshoppers here. The shapes.</p>
X	22	<p>demons right there and right there.</p>	<p>ERR. Right here. Like long nose and body.</p>
X	23	<p>And like a parallel universe</p>	<p>ERR. Because the same exact sides and the same too. (parallel universe?) like another dimension - another place with the same other persons.</p>
