

Performance Plan

The following pages will have instructions regarding how to complete either an Action Plan or Performance Improvement Plan for your intern.

Action plans can be completed and submitted as-is without prior approval from the Regional Training Director.

If you are completing an performance improvement plan be sure to use the **save and continue** feature prior to submitting the form. All PIP drafts need to be reviewed by the Regional Training Director BEFORE going over the plan with the intern and formally submitting it. Once you have completed your draft, please notify Daria Cook (dcook@psychologyinterns.org) so she can send a copy of the draft document to the Regional Training Director for review. Once approved, the draft can be reviewed with the intern and formally submitted.

Additional resources and instructions on how to create a performance improvement plan is available on the supervisor resources page: <https://psychologyinterns.org/interns-supervisors/>

Performance Plan

[View Intro Page](#)

The purpose of the Performance Plans is for both the intern and the site to make a written plan with specific measurable goals to support the intern's personal and professional growth as well as trajectory toward graduation. Definitions of the levels are provided below:

Action Plan

Action Plans are for situations where the concern is related to things not necessarily within the interns' control (being behind in hours) and/or not directly related to intern performance. The action plan could also have a primary focus on the site's responsibilities as appropriate. The intention of this plan is to determine the effectiveness of the steps put in place to remedy the concerns on a short-term basis. The formal oversight of the plan can be removed once the plan is established as effective. These areas include, but are not limited to, hour deficits needed to be addressed by the site.

Performance Improvement Plan (Level 1)

Level 1 PIPs indicate potential barriers to internship progress worthy of additional oversight and accountability. Such behaviors or performance would be areas of needed improvement but identified as substantially attainable and not related to significant deficits or concerns related to progress toward graduation. These areas include, but are not limited to, being behind in hours related to intern behavior, and paperwork/task timeliness.

Performance Improvement Plan (Level 2)

Level 2 PIPs indicate problematic performance and/or problematic conduct that pose more significant barriers to graduation progress due to their severity and/or repetitive nature. These areas include, but are not limited to, privacy violation, inappropriate behaviors, repeated failure to follow directives and are considered more serious than Level 1 plans.
