

Brittany Pratt, PsyD – Administrative Supervisor and NPTC Doctoral Intern Training Director

Dr. Pratt received her bachelor's degree in psychology from Ripon College in Ripon, Wisconsin. She obtained a master's degree and doctoral degree in clinical psychology from The School of Professional Psychology at Forest Institute in Springfield, Missouri. She completed her internship at Burrell Behavioral Health and a postdoctoral residency with Midwest Assessment & Psychotherapy Solutions. Dr. Pratt's clinical and research interests are in the areas of adolescence and emerging adulthood, gifted and high-achieving individuals, school-related issues, and coaching parents and children through solving behavioral problems. She currently provides outpatient therapy services for children, adolescents, and adults, and is an administrative supervisor for a team of outpatient clinicians. Dr. Pratt is the current President of the Missouri Psychological Association and volunteers with community organizations.

Seth Allen, Ed.D. – Director, Autism

Seth Allen is a Psychologist and Director of the Autism Center at Burrell Behavioral Health. He received his doctorate in Counseling Psychology from Boston University in 2007, and has been working as a psychologist in Missouri since 2007. Seth has worked with a variety of populations and ages in multiple settings, including at various outpatient community counseling locations at Burrell, and the inpatient psychiatric and medical hospital at Mercy. Over the years, he has provided outpatient counseling services to individuals with a wide range of diagnoses and conditions, including those with psychiatric, developmental, and substance abuse diagnoses. Also, Seth has extensive experience providing comprehensive psychological evaluations, with a sub-specialty in Autism Evaluations for youth through adulthood. He became the Director of the Burrell Autism Center in April of 2019, where he helps operate a diagnosis team as well as groups of treatment providers, which include Applied Behavior Analysis, Occupational Therapists, and Speech-Language Pathologists.

Chelsie Black, PsyD – Autism Coordinator/Staff Psychologist

Dr. Chelsie Black, PsyD earned her doctorate degree in clinical psychology from The Wright Institute in California in 2016 and her master's degree in clinical psychology from Forest Institute of Professional Psychology in Missouri in 2013. She completed her pre-doctoral internship through Frontier Health in Tennessee/Virginia in 2016 working with young children and adolescents providing individual and family therapy as well as psychological evaluations in a rural community. She completed her post-doctoral residency at Burrell Behavioral Health in 2018, providing autism evaluations, individual therapy, and working alongside with other providers in the Children's Day Treatment program. She continues to provide services through Burrell Behavioral Health in the Burrell Autism Center. Dr. Black has an interest in working with toddlers and young children providing comprehensive autism evaluations on a multidisciplinary diagnostics team and helping families connect with services that will meet the child and family's needs. Dr. Black primarily provides developmental assessment services to children ages 18 months to 9 years of age. In addition, Dr. Black provides family centered therapy for toddlers and young children ages 1-4 with a diagnosis of Autism and their parents. This consists of parent coaching sessions targeting social communication delays, emotional regulation, adaptive functioning, and behavioral problems.

Angelique Butler, PsyD – Psychologist

Dr. Butler obtained her bachelor's degree in psychology at Missouri Southern State University in Joplin, Missouri. She earned her doctoral degree in clinical psychology at Forest Institute of Professional Psychology in Springfield, Missouri and a postdoctoral master's degree in clinical psychopharmacology from Alliant International University in San Diego, California. She completed her internship at the Division of Youth Affairs in West Palm Beach, Florida and her postdoctoral residency at the Pomme de Terre Wellness Clinic in Bolivar, Missouri. Dr. Butler's current clinical interests include telehealth services, psychological evaluations, and supervision. She currently provides psychological evaluation services to ages 6+, initial eligibility determinations, and telehealth training services at Burrell Behavioral Health.

Chelsea Gilliam PsyD – System Director, Adult Integration

Chelsea Gilliam began her journey in clinical psychology by obtaining her bachelor's in psychology at Lyon College in Batesville, Ark. She earned a Masters in Mental Health from Mississippi College in Clinton, Miss. and then her PsyD in clinical psychology at Forest Institute of Professional Psychology in Springfield. It was at Forest Institute where Chelsea became interested in behavioral health integration and completed her dissertation on the correlation between infertility and shame. She completed internship locally within the National Psychology Training Consortium and completed residency at Burrell Behavioral Health from 2014-2015. Chelsea continued her interest in integration at Jordan Valley Community Health Center where she developed and implemented an integrated pain management program. After searching for more opportunities for program development, Chelsea returned to Burrell in 2018 as part of the fast-growing integration team. Chelsea is currently the System Director of Adult Integration at Burrell where she provides oversight of integrated care projects at local health centers and college campuses across the region.

Molly Six, Ph.D. – Psychologist, Administrative Supervisor

Dr. Molly Six earned her bachelor's degree in psychology from Central Michigan University. She earned her master's and doctorate degrees in counseling psychology from Western Michigan University. Dr. Six has been fully licensed as a psychologist in Missouri since 2018. Dr. Six's clinical and research interests include: eating disorders, the psychological impact of racism, racial identity development, LGBTQ concerns, women's issues, interpersonal attachment, and interpersonal therapy. Dr. Six currently provides outpatient therapy services to adolescents and adults (ages 12+). In addition to her role as a licensed psychologist, Dr. Six is an administrative supervisor to a team of outpatient clinicians.

Phil Swope, Psy.D – Psychologist

My name is Philip Swope, PsyD, a clinical psychologist at Burrell Behavioral Health in partnership with Cox Health. I'm interested in working with young adults, and provide services within a hybrid integrated/traditional setting at the Panther Clinic at Drury University, a local private college in the heart of Springfield, Missouri. My passions for developing integrated care programs, involvement in community outreach, sports psychology, solution-focused therapy, and diagnostic evaluations, all culminate to bring an integrated solution to the needs of college-age adults. I have a variety of research interests, including the polyvagal theory, sports psychology, and comorbid physical health diagnoses. Overall, this site is dynamic, and rich in opportunities for learning to efficiently evaluate, diagnose, utilize a non-traditional integrated model, develop relationships so as to find and maintain referral sources, and practice time-limited therapy.

Kristen Thompson, PhD – Director of Pediatric Integration

Dr. Kristen Thompson received her degree in clinical psychology in 2016 from Northern Illinois University, where she earned a special emphasis in child psychology and conducted research on interpersonal violence and mindfulness. She completed internship at the University of Michigan Mary A. Rackham Institute prior to specializing in pediatric psychology during a fellowship at Children's Mercy Hospital, where she worked closely with medical providers in the hospital and in integrated specialty and primary care clinics, providing services to patients with chronic health conditions, traumatic injuries, and developmental and behavioral health disorders. Dr. Thompson joined Burrell Behavioral Health in 2017 and is currently the System Director of Pediatric Integration. She works with community partners to expand access to behavioral health care for children by pairing behavioral health services with the health care children are already receiving. Dr. Thompson is also the director of Burrell's Youth Focus Clinic, which provides multidisciplinary care to children and adolescents with ADHD.

Lindsay Vo, Psy.D – Neuropsychologist

Dr. Vo earned her doctorate in clinical psychology from William James College in Boston, Massachusetts, and completed more than two years of post-doctoral, specialized training in clinical neuropsychology (Neuro-Psychology Associates in Western Massachusetts and Central Arkansas Veterans Affairs Health Care Systems in Little Rock). She currently provides comprehensive neuropsychological evaluation

services to adults and older adults, and psychoeducational evaluations to children and adolescents. The most common referral questions she receives, include dementia, traumatic brain injury/concussion, ADHD, movement disorders, and learning disabilities. She is the co-chair of the Vietnamese Neuropsychology Network and is an active member of the Asian Neuropsychological Association, National Academy of Neuropsychology, and International Neuropsychological Society, with the hopes of improving culturally competent neuropsychological assessment. Other interests include therapeutic feedback, cognitive rehabilitation, and assessment of noncredible task engagement.
