

EPPP RESOURCES

Exclusive discounts and free workshops are available!

NPTC strives to support its interns throughout their careers. We want to see all alumni become licensed. A difficult and expensive hurdle toward licensure is the EPPP exam. We aim to assist alumni with access to EPPP preparation programs by making it more affordable. We have partnered with several study programs, securing discounts so our alumni can find a program that suits their learning style.

Below you will find a list of our current program partners. We encourage you to review the options and consider your learning style.
