If you have an existing account, please feel free to use it. New users can create an account for free or enter the server as a guest. To ensure everyone is identifiable, please change your "nickname" to your first or first name with the last initial. You can do this by right-clicking on your profile name and selecting "Edit Server Profile." You can change your "Server Nickname" and pronouns from the options menu.

The server is designed to facilitate discussions, share resources, have fun, and foster a sense of community. We've set up text and voice channels for different topics. Please review the community guidelines in the general chat, and feel free to introduce yourself and start chatting! If you have an idea for a new channel, please let the moderators know by messaging @moderators in the general chat. Hye Ree Ahn, Ashley Geraci, and Kennedy Odulio-Papa from the Great Lakes cohort will be serving as moderators to ensure a safe and respectful community. We're also planning to host virtual events like movie or game nights using this server. If you have ideas, we'd love to hear them!
