

# Getting to Know Your Potential Supervisors

## **Brittany Pratt, Psy.D.**

### **Psychologist & Site Training Director**

Brittany Pratt received her bachelor's degree in psychology from Ripon College in Ripon, Wisconsin. She obtained a master's degree and doctoral degree in clinical psychology from The School of Professional Psychology at Forest Institute in Springfield, Missouri. She completed her internship at Burrell Behavioral Health and a postdoctoral residency with Midwest Assessment & Psychotherapy Solutions. Dr. Pratt's clinical and research interests are in the areas of adolescence and emerging adulthood, school-related issues, and coaching parents and children through solving behavioral problems. She is a board member for the Missouri Psychological Association and volunteers with community organizations.

## **Crystal Beckham, Psy.D.**

### **Psychologist**

Crystal Beckham earned her degree in Clinical Psychology from Forest Institute of Professional Psychology in 2006. She completed her APA approved pre-doctoral internship at a forensic hospital and correctional facility as part of the Northeastern Oklahoma Psychology Internship Program. Her post-doctoral residency was with Southeast Missouri Mental Health Center in Farmington, MO, in our long-term care/forensic unit. She spent over a decade working in forensics and corrections before developing specific interest in pain psychology. Her training includes designation as a Stanford University Empowered Relief certified instructor. Dr. Beckham has interest in adult and older adult presurgical and diagnostic clarification evaluations as well as treating chronic pain through cognitive-behavioral and acceptance commitment techniques.

## **Chelsie Black, Psy.D.**

### **Autism Coordinator/Staff Psychologist**

Chelsie Black earned her doctoral degree in Clinical Psychology from The Wright Institute in California in 2016 and her master's degree in clinical psychology from Forest Institute of Professional Psychology in Missouri in 2013. She completed her pre-doctoral internship through Frontier Health in Tennessee/Virginia in 2016 working with young children and adolescents providing individual and family therapy as well as psychological evaluations in a rural community. She completed her post-doctoral residency at Burrell Behavioral Health in 2018, providing autism evaluations, individual therapy, and working alongside with other providers in the Children's Day Treatment program. She continues to provide services through Burrell Behavioral Health with her primary location being the Burrell Autism Center. Dr. Black has an interest in working with toddlers and young children providing comprehensive autism evaluations on a multidisciplinary diagnostics team and helping families connect with services that will meet the child and family's needs. Dr. Black primarily provides developmental assessment services to children ages one through eight and group treatment services to children ages three to five. In addition, Dr. Black is in the process of developing a family-centered early intervention program at the Autism Center for families who have a toddler diagnosed on the spectrum, following Florida State's Autism Navigator Program.

## **Angie Butler, Psy.D.**

### **Psychologist**

Angie Butler interned in South Florida and completed a six-month rotation in outpatient with children and families, psychological evaluations, and parent education. She also completed a six-month rotation in a residential facility for adolescents. Her post-doctoral residency was completed in several rural outpatient medical clinics providing integrated healthcare services. She has worked in emergency rooms, providing threat assessments and inpatient placement, as a staff psychologist in a rural, outpatient community mental health clinic providing therapy and psychological evaluations to all ages, as a telehealth psychologist to nursing home residents in another state, and has provided psychological evaluations, Medicaid eligibility evaluations, disability evaluations, and parenting

assessments in an outpatient setting. She currently provides psychological evaluations, bariatric evaluations, spinal cord stimulator evaluations, and parenting evaluations as well as initial assessment eligibility determinations and training programs for telehealth services in a community mental health clinic.

### **Jordan Coleman, Psy.D.**

#### **Psychologist**

Jordan Coleman is a licensed Clinical Psychologist with a Master's Degree in Marriage and Family Therapy. She specializes in psychological evaluations for ages six and up. She is qualified to administer Autism evaluations with the ADOS-2. Dr. Coleman also is trained in Dialectical Behavioral Therapy and exclusively performs and provides psychological evaluations. She works at the MAPS–Seminole location, and is a generalist working primarily with ADHD, mood disorders, psychotic disorders, and conduct disorders.

### **AnnElise Parkhurst, Ph.D.**

#### **Psychologist**

AnnElise Parkhurst is a Licensed Psychologist who has worked in the Springfield, Missouri area for over 40 years. She has practiced at Burrell Behavioral Health, The Family Care Center (now part of Burrell), and the Robert J. Murney Clinic. In addition to treating clients, Dr. Parkhurst has also taught and supervised clinical psychology students with the Forest School of Professional Psychology. Dr. Parkhurst's primary clinical and research interests involve interpersonal/psychodynamic therapy, group therapy, and supervision. She has worked in inpatient and outpatients contexts to provide individual and group therapy to adults and adolescents, as well as to conduct focal groups organized around specific topics. Following her transition from clinical practice to an academic setting in 1996, Dr. Parkhurst employed group process to train psychology interns about their interpersonal dynamics and how these impact their work with clients. Dr. Parkhurst has supervised a number of psychology interns with Burrell Behavioral Health Center, emphasizing their recognition of their contribution to the therapeutic process.

### **Molly Six, Ph.D.**

#### **Psychologist**

Molly Six received her Ph.D. in Counseling Psychology from Western Michigan University. She has been fully licensed as a psychologist since December of 2018. Her research and clinical interests are intertwined. Dr. Six's interests include: eating disorders/body image, multicultural concerns (particularly matters related to racism and racial identity development), LGBTQI+ concerns, women's issues, mood and anxiety disorders, attachment theory, cognitive behavioral therapy, and interpersonal therapy. As a licensed psychologist, Dr. Six is currently providing individual therapy, and occasionally family therapy, to adolescents and adults ages 12 and up. In addition to her role as psychologist, she also serves as the administrative supervisor at the MAPS–Belcres (Child and Development Center) location.

### **Phil Swope, Psy.D.**

#### **Psychologist**

Philip Swope is Clinical Psychologist at Burrell Behavioral Health in partnership with Cox Health. He completed a post-doc at Burrell Behavioral Health in the areas of adult and pediatric integrated care, and assisted in the development of integrated care in a university setting. He has specialty knowledge in the area of the mind-body connection and the Polyvagal theory for effective, biologically-based, solution-focused interventions. Dr. Swope is interested in working with young adults and provides services within a hybrid integrated/traditional setting at the Panther Clinic at Drury University, a local private college in the heart of Springfield, Missouri. His passions for developing integrated care programs, involvement in community outreach, sports psychology, solution-focused therapy, and diagnostic evaluations all culminate to bring an integrated solution to the needs of college-aged adults. His site is dynamic and rich in opportunities for learning to efficiently evaluate, diagnose, utilize a non-traditional integrated model, and develop relationships so as to find and maintain referral sources, and practice time-limited therapy.
